WORK EXPERIENCE

National University of Singapore, Singapore

August 2015 To December 2015.

Part Time Teaching Assistant at Department of Computer Science,

- Tutor for CS3244 Machine Learning and CS6205 Advanced Modelling and Simulation modules at Department of Computer Science.
- **Lecturers:** Prof. Chew Lim TAN and Dr. Hwee Kuan LEE.

University of Alberta, Canada

May 2011 To July 2011.

Research Assistant in “Optimization of CO_2 Injectivity in Geological Carbon Storage” project with Prof. J. Fraser Forbes and Prof. Vinay Prasad.

- Implemented a model of oil reservoirs using MATLAB and studied the relation between well location and migration of CO_2 in depleted or near-depleted oil Reservoirs.
- Optimized the amount of Carbon Dioxide injected into the reservoir within the constraints of Parameters like Bottom Hole Pressure, Permeability and Porosity of Rocks.
- Implemented the optimisation using both constrained non-linear programming and genetic algorithm based solvers in MATLAB.

DISSERTATIONS

National University of Singapore, Singapore

January 2013 - December 2017

Supervisors: Dr. Hwee Kuan LEE and Prof. Wing-Kin SUNG, Ken.

- Developed an automated image based prominent nucleoli detection system for histopathological images.
- Developed a machine learning and image processing based automated system for gland segmentation in prostate histopathological images.
- Developed an automated image based grading system using nuclear patterns for renal histopathological images.

The above projects were implemented using C++, OpenCV, and Python. I primarily use C++ for development purposes.

Indian Institute of Information Technology-Allahabad, India

January 2012 To July 2012

Supervisor: Prof. Uma Shanker TIWARY

- Development of software using CMUSphinx library, C++ and Java to transcribe a large amount of audio data into text format and facilitate search using audio queries.
- Use of multiple text document summarization based approach by incorporating human knowledge represented via fuzzy logic-based word-mesh and sentence-mesh.
